PROFILE

Product design and UX leader with 14+ years across enterprise consulting, fintech, mobility, SaaS and consumer products. I take products from ambiguous problem to shipped experience — product strategy, UX, design systems and AI-assisted prototyping — partnering closely with founders, product, engineering and senior stakeholders. Led the product experience for RapiPay's NYE Money super app; Staff UX Consultant at Nagarro on enterprise programmes for clients including Verizon and Crowley Maritime. Founder of Elevate Innovation, an independent design-consulting practice, and builder of AI-powered products including Bolo Buddy. NID alumnus and Associate Professor of Communication Design.

Seeking: remote Staff / Principal Product Designer, Product Design Lead and AI Product Design roles.
